2

It is recommended that acceptable limit is to be implemented .Values in excess of those mentioned under "acceptable" render the water not suitable, but still may be tolerated in the absence of an alternative source but up to the limits indicated under the "permissible limit in the absence of alternate source" in column 4 above which the source will have to be rejected

3 The results refer only to tested samples and parameters tested

4 This lab does not hold any responsibility for variation in results for for samples kept on hold for want of clarification.
